B. President's welcome speech

The Chairman opened the meeting expressing his condolences for the passing of WTF Vice President Dr. Sunjae Park and the Council had a moment of silence to mourn his absence.

Thank you for joining the Extraordinary Council meeting in Taekwondowon where 2017 WTF World Taekwondo Championships will take place on June 24-30 next year.

This place has also been designated by the WTF as the WTF Central Training Center to provide huge benefits for many international taekwondo athletes. The opening ceremony of this center will be held after the morning session of the council meeting.

This council meeting is truly meaningful as we are gathering here on the occasion of coach-referee joint training camp for Rio 2016 Olympic Games. I've been saying always that the joint training camp in 2012 in Suzhou was secret to success of London Olympic Games. This camp should not only serve as the occasion to give the most updated technical information but also make the all participants united under the name of taekwondo.

The Rio 2016 Olympic Games are only 3 months away. There are still many concerns about the Games due to delay of venue construction, political turmoil, water conditions, security and Zika virus. However, the IOC reassured that the Games must go on and will go on.

For Taekwondo, Rio means a lot.

After huge success in London, we have pursued for more changes and innovation.

Allocation of the same number of International Referees per male and female will illustrate the value of gender equality.

Allowing colored pants will create innovate look and feel of taekwondo competitions.

Using PSS headgear will ensure more transparent judging system.

Octagonal-shaped mat will clearly showcase the unique identity of taekwondo and will make taekwondo competitions more exciting in a close distance between competitors.

Finally, participation of one refugee athlete will symbolize the WTF's efforts to empower young refugees.

After completion of all five continental qualification tournaments, a total of 128 athletes from 63 countries will now compete in Rio. Under the new system where top 6 athletes were qualified directly to the Games, we also successfully maintained the value of universality as well.

Countries such as Aruba, Belarus, Cape Verde, D.R.Congo, Moldova, Mongolia and Tonga are competing in the Olympic taekwondo for the first time. This number might be increased after decision of Tripartite Commission for wild cards.

In every Olympic Games, taekwondo is brining changes not to differentiate from the past but to create and add values.

The WTF is aiming to embrace the vibrancy and energy synonymous with the Brazilian host city. We will also place a greater emphasis on sport presentation with music and unique taekwondo demonstrations for the spectator's engagement. Brazil is well known for its rich and vibrant culture and we really want to capture this to deliver a carnival of Olympic taekwondo. We are confident that Rio 2016 will bring more excitement, action and drama than ever before.

You will hear more about Rio on the preparations and other technical changes made for Rio Olympic Games later this meeting.

By the way, we got support from the sportswear company 'Fila' for jackets for Rio. They are also offering free Korean food at its lounge to those who wear the sponsored jackets. The exact location of the lounge will be presented during presentation for Rio.

On the other hand, there has been significant progress of our Taekwondo Humanitarian Foundation project. Together with the Continental Union Presidents, we visited Nepal in January as part of earthquake relief program. It was incredibly touching to see that the Nepalese people are overcoming the damages well and taekwondo is playing a key role. According to the top governmental officials of Nepal, taekwondo has been nominated for national sport of Nepal, and the decision will be made soon.

In recognition of our efforts for refugee empowerment, we received letters of endorsement from the IOC, United Nations and even from the Vatican. MOU was signed with UNHCR for close collaboration for operation of taekwondo academies in refugee camps. United Nations Special Envoy Dr. Jacques Rogge suggested collaboration in refugee camp in Rwanda after feasibility studies.

While we are actively moving forward, Taekwondo Humanitarian Foundation was officially registered on April 15 in Lausanne, meaning that THF is now a legal entity in Switzerland which has its own bank account for effective fundraising.

Now we have to accelerate fundraising and signing campaign to further increase awareness of THF activities and expand taekwondo academies in more refugee camps. I hope that Council takes a leading role in encouraging global taekwondo families to join this great move. Later this meeting, more information on THF will be presented.

It is also meaningful to touch on the creation of the 1st WTF World Beach Taekwondo Poomsae Championships. In close collaboration with Indonesian Taekwondo Federation, the preparations are well under way, and the details will be discussed later the meeting.

My father used to say "Peace is more precious than triumph". I am so happy that taekwondo is able to contribute to realization of peace in human society through the value and beauty of taekwondo. To promote this value of taekwondo, we are planning to organize the World Taekwondo Peace Festival on taekwondo day which is September 4. Securing budget might be challenging but it is under way with help of Global Taekwondo Support Foundation so called "GTSF".

GTSF was inaugurated on July 30 in 2013 following my suggestion at the General Assembly in July 2013 in Puebla, Mexico. Under leadership of Mr. Yongwon Jeon, who is also Chairman of WTF Advisory Members, it has been working tirelessly to support the activities of the WTF.

GTSF was officially registered under the law of Rep. of Korea in the name of Global Taekwondo Support Foundation for Peace and Unification.

GTSF is an independent organization affiliated to the WTF and is intended to support the World Taekwondo Peace Festival and collaboration between the WTF and ITF.

In addition, this organization will help support taekwondo educational program and medical services in refugee camps. I will update you with the progress on this festival and cooperation with GTSF.

There are many positive steps taken this year and many activities are going on. That is why we have many items to cover and discuss today in this council meeting, so I will now quickly move on to the next agenda and give comments to each item if necessary.

C. Approval of the minutes of the Council Meeting held in Mexico City, Mexico on December 7, 2015

The Chairman motioned for the approval of the minutes of the WTF Council Meeting held on December 7, 2015 in Mexico City, Mexico. The minutes were included in the Agenda and Documents of this Council Meeting. The motion was seconded and unanimously approved.
