Article 1:

Fundamental Principles

- 1 Ranking system shall be applied to all WT-promoted and recognized G Rank events or to the event determined by the WT, provided that the championships are organized in compliance with WT Competition Rules under supervision of the WT Technical Delegate, on an individual basis in the eight (8) World weight categories or four (4) Olympic weight categories (men and women) of senior category that are defined in the WT Competition Rules.
- 2 WT Rankings shall be published in two documents: WT World Weight Category Ranking and WT Olympic Weight Category Ranking. WT World Weight Category Ranking is the ranking of eight (8) senior weight categories for men and women, respectively; and WT Olympic Weight Category Ranking is the ranking of four (4) Olympic weight categories for men and women, respectively.
 - 2.1 When an athlete competes in WT promoted or recognized tournaments:
 - 2.1.1 WT World Weight Category Ranking: Points earned by athletes are allocated to the World Weight Category Rankings in which he/she competes at the WT promoted or recognized events. WT will publish a ranking for each weight category and it is possible for an athlete to be ranked in several categories.
 - 2.1.2 WT Olympic Weight Category Ranking: Ranking is built by cumulating points earned in a World Weight Category and two (2) adjacent World Weight Categories (for example, the Olympic weight category ranking -58kg is calculated by cumulating the points earned in -54kg, -58kg and -63kg). An athlete shall be ranked in one(1) Olympic weight category following his/her selection.(Article 1.3)

Men's category			Women's category		
World	→	Olympic	World	→	Olympic
-54, -58, -63kg	→	-58kg	-46, -49, -53kg	→	-49kg
-63, -68, -74kg	→	-68kg	-53, -57, -62kg	→	-57kg
-74, -80, -87kg	→	-80kg	-62, -67, -73kg	→	-67kg
-80, -87, +87kg	→	+80kg	-67, -73, +73kg	→	+67kg

- 2.2 If an athlete competes in Olympic weight category tournaments:
 - 2.2.1 WT World Weight Category Ranking: Ranking points shall be recorded as follows.

Men's category			Women's category		
Olympic	→	World	Olympic	→	World
-58kg	→	-58kg	-49kg	→	-49kg
-68kg	→	-68kg	-57kg	→	-57kg
-80kg	→	-80kg	-67kg	→	-67kg
+80kg	→	+87kg	+67kg	→	+73kg

- 2.2.2 WT Olympic Weight Category Ranking: Ranking points shall be awarded to the athlete in the weight category in which the athlete competed in.
- 2.2.3 The declaration of an Olympic weight category does not restrict an athlete to compete only in the declared Olympic weight category. However, in case an athlete earns points in an Olympic weight category other than what is declared at the time of competition points will be awarded according to Article 1.2.1.2. This means these points may not be reflected in the Olympic weight category rankings unless the athlete changes their declared Olympic weight category in accordance with Article 1.3.4.

3. Choice of Olympic weight category

- 3.1 Athletes can determine their choice of Olympic Weight Category during an annual window from May 1 to 25 using the online system for the Global Athlete Licence or an alternate method announced by WT. The selected Olympic Weight Category will be applicable for events held for a period of one year from June 1 to May 31 of the following year by the athlete. The Olympic Weight Category selection or change will be reflected in the July rankings released following the closure of the Olympic Weight Category selection window for the year.
- 3.2 If no change in Olympic Weight Category is announced during the annual Olympic weight category declaration window period, the athlete automatically keeps the most recently declared Olympic Weight Category from the previous year (s).
- 3.3 If an athlete does not select an Olympic Weight Category, the allocation of points from the World Weight Category to the Olympic Weight Category will use the following default allocation and an athlete in this case may be ranked in more than one Olympic Weight Category.

Men's category			Women's category		
World	→	Olympic	World	→	Olympic
-54, -58kg	→	-58kg	-46, -49kg	→	-49kg

-74, -80kg	→	-80kg	-62, -67kg	→	-67kg
-87, +87kg	→	+80kg	-73,+73kg	→	+67kg

- 3.4 If an athlete changes their declared Olympic Weight Category, the valid points in the ranking cycle will be transferred only from the overlapping World Weight Category(s) to the newly selected Olympic Weight Category as per the following default allocation.
