#### D. Vision for WT in next 4-years

- *The desire and dedication for my life journey is to learn, to grow and to be useful. I have been called a practical dreamer. I imagine what is possible and use an inclusive leadership style to encourage others to make the most of their personal skills and talents to achieve even more than they thought themselves capable of achieving. This approach has brought about many successes, including in long history of elected service with Taekwondo Canada.*
- *I recognize that we have responsibilities as members of society. As members of WT we are in positions where we can elevate people's lives by sharing our time, talents, expertise and service through both our martial art and elite sports programs. My vision includes ensuring that everyone who comes in contact with our Taekwondo community has an enriched, empowered, life as a result of their experiences.*
- *I believe the core values of Taekwondo provide powerful foundations for our organization to contribute to the Olympic ideals of peace and humanitarian causes. Among the practical steps to realizing these ideals is a commitment to work with our member nations to ensure their talented athletes, coaches, officials and referees have access to the world stage.*
- *I understand that change occurs. (This is a lesson everyone on the planet has learned and is still learning.) I believe that if we are willing to learn, we can find ways to adjust and adapt, while staying true to our core beliefs. We can become a community of leaders who create, innovate, and contribute to the greater good of our beloved sport and to our world.*
- *If I am elected as a member of the WT Council for the Pan Am Region, I promise to serve with my honor and to use my energy, life and professional experiences and skills to advance the interests and benefits of Taekwondo.*
