D. Vision for WT in next 4-years

- *The Olympic Ideal has always inspired mankind. The IOC has strived to remain relevant in a rapidly changing world which is challenging as society continues to evolve in new directions. The world is a different place as a result of COVID-19 and that impact will profoundly influence how countries move forward. In a world of controversy with vast geopolitical issues, sport remains a common place for people to gather and celebrate. I feel the Olympic Ideal will become even more important in the future, and Taekwondo's impact on this future will be significant.*
 - *I believe the long-term vision for WT is for Taekwondo to continue to expand its relevance globally and to have a lasting positive impact on humanity. For the next four years I see WT Taekwondo becoming recognized as a permanent Olympic Sport, expanding the medal events in the Olympic Games and serving as a model International Federation for the IOC. It would be a distinct honor to serve the WT in seeing this vision become a reality.*
