1. Introduction

The World Taekwondo Federation has undergone a period of rebranding, with the organization renamed as World Taekwondo (WT). This name change was accompanied by an entirely new brand design concept to boost its image and enhance its exposure.

The organization’s new logo, becomes a springboard for its rebranding, and is anticipated to change the overall look and feel of WT.

This redesigned and revived logo is expected to reflect a global modern outreach as well as the organization’s contemporary outlook.

World Taekwondo (WT) is the International Federation (IF) governing the sport of Taekwondo and is a member of the Association of Summer Olympic International Federations (ASOIF) and International Paralympic Committee (IPC).

Chapter 03.

Brand Identity
Basic Systems
3.1.1. The Symbol

The Symbol which pertains to the image below has been designed to be considerably developed from the original high-kick icon, and to be relevant for contemporary needs. It represents the World Taekwondo Federation’s integrity and spirit that aims to embrace everyone, promoting equality and diversity through participation in sports.

WT’s Symbol in its brand identity consists of five colors, which perform the role of eliciting the philosophy of Taekwondo, the five different continents, as well as Olympism.
3.1.2. The Symbol: Isolation area and size minimization

Isolation Area: In order to give the WT logo enough room and to ensure legibility, adequate space should be given around it. This space refers to a clear white area that surrounds the logo into which no other graphic elements may be used.

For all the variations of the brand logo, ample space is constructed by measuring the height of the Symbol(x) plus an additional 25% of this measurement all around the logo.

The brand logo may be enlarged or reduced in size, yet should appear no smaller than 10mm height, or 28px height in digital applications. Always ensure that the logo avoids distortion that may affect its proportion.
3.2. Logotype

The logotype represents the World Taekwondo and is closely aligned to WT’s mission, which defines the value of the federation, “Taekwondo for all.”
3.3. Colors

WT’s symbol, and in extension, its brand identity consists of five colors. These are Green, Yellow, Red, Blue and Black. These colors were carefully selected to evoke the philosophy of Taekwondo which includes the following: courtesy, integrity, perseverance, self-control, an indomitable spirit, as well as Olympism. These colors are critical factors in delivering World Taekwondo’s image.

For consistency, always use the color palette provided in this guide for all materials. The color palette of the logotype is based on a grey color scale (C0-M0-Y0-K80). When the logo appears on a black background, the black color of the Symbol needs to be changed into the alternative color scale (C0-M0-Y0-K60).

# World Taekwondo Brand Guidelines
3.4. Typeface

The World Taekwondo Primary logo (p.22) uses Futura Bold Oblique typeface as shown below. The World Taekwondo Circular logo (p.34) uses Futura Bold typeface as shown below. Only designated typefaces, boldness, and proportions should be used in all materials. Regardless of scale, use upper case letters for all communications. The main text is left-aligned at all times.

Typeface plays a critical role in building the overall look of WT’s brand. Recognizing this is a critical part in maintaining quality and complying with all rules that are supplied.

3.5. Four variations of the Logo Signature

There are four variations of the Primary logo which pertains to the symbol and the logotype that meet different design needs. Depending on the types of media used, the most appropriate variation should be selected. Primary logo 1 (L1) should be used for the majority of communications. L2 through L4 can be used to focus on World Taekwondo’s vision, which is to promote, expand, and improve the practice of Taekwondo worldwide, in short, to demonstrate “Taekwondo for all.” Only supplied artworks are to be used, without alteration. * Other than the Primary logo options, there are more options shown later in the guideline.

L1: Main logo of WT. This will be used as the primary logo for most occasions.
L2: Can be used to define the value of Taekwondo as pursuing equality and diversity. Can be used in events that involve the elderly, the disabled, or the socially vulnerable classes, not only for sporting events.
L3: Can be used when there is limited space for the L1 logotype.
L4: Can be used when there is limited space for the L2 logotype.

3.6.1. The Primary Logo Signature(L1): Structure

The World Taekwondo brand identity consists of two basic elements: The Symbol and the Wordmark. By including the internationally renowned Taekwondo high-kick, the Symbol delivers WT’s integrity, energy, and spirit in a contemporary way. The Wordmark represents the World Taekwondo Federation. These two elements are carefully positioned in relation to one another to create a feeling of harmony and excellence.

WT uses two major logo structures, the Primary and the Circular. The Primary signature is as shown below. As the name suggests, use of the Primary design with its designated colors is the preferred choice and is used in most media/printing materials. In certain circumstances, when space is limited, the Circular signature may be used. The color of the Symbol should appear consistently and accurately as it is chosen to communicate the spirit of the WT brand, which stands for is dynamism, perseverance, respect, and unity. Only designated colors should be used in order to maintain the quality of the WT brand.
3.6.2. The Primary Logo Signature(L1): Isolation area and size minimization

Isolation Area: In order to give the WT logo enough room and to ensure legibility, adequate space should be given around it. This space refers to a clear white area that surrounds the logo into which no other graphic elements may be used.

For all the variations of the brand logo, ample space is constructed by measuring the height of the SYMBOL(x) plus an additional 25% of this measurement all around the logo.

The brand logo may be enlarged or reduced in size, yet should appear no smaller than 10mm height, or 28px height in digital applications. Always ensure that the logo avoids distortion that may affect its proportion.

3.6.3. The Primary Logo Signature(L1): Background

WT’s logo consists of six colors. These are Green, Yellow, Red, Blue, Black and Grey. These colors were carefully selected to evoke the philosophy of Taekwondo which includes the following: courtesy, integrity, perseverance, self-control, an indomitable spirit, as well as Olympism. These colors are critical factors in delivering the image of World Taekwondo. For consistency, always use the color palette provided in this guide for all materials.

When the logo appears on a darker background, please follow the instructions as shown below. When the logo mainly appears on a white background, the Symbol is to be multi-color and the Wordmark in grey (C0-M0-Y0-K80). On a black background, use the black color of the Symbol is to be grey (C0-M0-Y0-K60) and the Wordmark in white (with the other colors remaining the same).

In the case that the logo is placed on a gradient background or a background containing various colors other than black and white, it is essential to use the outlined Symbol to leverage the visual impact. On any color background other than black and white, use the Wordmark in white.

Depending on the design circumstances, the logo can be replaced all in white as shown below.
When the colors are used consistently, the logo will help maintain a strong brand identity. Depending on the design circumstances, the colors on the logo can be replaced, specifically the Green, Yellow, Red, Blue, and Black colors can be either inside or outside the Symbol and Wordmark as shown below.
3.6.4. The Primary Logo Signature(L1): Tinted Background

When the multi-color logo shares the same color as their background, there must be sufficient contrast - minimum 50% in value. However, Red and Yellow are excluded.
