Skills

Works in Multidisciplinary and Multiethnic groups/teams: Due to my academic formation and my current job, I have developed skills to work in group with professional of different disciplines and educational levels. This experience has given me the Knowledge to understand different concepts and terminologies, which allows me to find a common ground more easily. In relation to multiethnic groups, the YOGs experience has given me knowledge to identify cultural and ethnic differences wich in most of the cases can generate conflict.

Ability to collect, Analyze and classify information: I believe that information and knowledge is the key to communications and friendly relationships. Because of this belief and my education, I have successfully achieved ability to detect variables, to collect, analyze and classify information in order to have a thorough understanding not only of the context but also problematic situations. This skill has allowed me to find the best solution to every particular situation or problem.

Technological Skills:

- Proficient in using Microsoft Office (Word, Excel, Power Point). I daily use these tools for my personal life and also with academic purposes, such as: create and deliver reports, create presentations, among others.

Language Skills:

- Native Speaker of Spanish
 - Advanced level in English
 - Basic level in Portuguese.
