Committee meeting in Korea

Poomsae referee Chairman in Qatar 2015

Referee during World Hanmadang (several years)

Voluntary job as Poomsae/Freestyle chairman as follows

Give courses and trainings for starters up to national/international technical referees and administrative work. Further I wrote the rules according WT standard in conformation with Dutch Federation (TBN). Professionalize quality and growth. These views characterize the focus for the coming years. Technical taekwondo is gaining more and more importance within the world of taekwondo and beyond. This visibility and positive development result in more attention for the sport within taekwondo. To my opinion, technical taekwondo needs to be promoted further, and made more spectacular by introducing the proper guidelines. We followed the right track we have to stick to the chosen direction I am satisfied with Mr. Marc van Keulen (Director) of Dutch Taekwondo Federation (TBN), And Belgium Taekwondo Federation (BTF). These gave me the freedom to explore new possibilities. Also it's nice to have regular contact about the normal procedures, advice and the latest developments. The members also benefit from this. Good technical referees are important because they contribute to the acceptance of competition results. In the coming years I will, via an action plan, increase the quality of the technical referees and reinforce the technical jury organization. The technical referees have to take refreshing courses in order to keep up with continuous international developments. Simulation exercises, like video tapes of national and international competitions, can be used. The jury corps has to grow in the future. Courses are being offered to increase the size of the current national jury corps and promotions to keep motivating them. On the other hand, current referees get the opportunity to refresh their knowledge. Furthermore, I hope that we, as referees, can meet twice or three times per year for the future in order to pay more attention to theory and practice. The level of knowledge will certainly benefit from this.

International Taekwondo Masters Cup

Few years ago, I organized the Masters Cup for the 7th time. It's an successfully international A-classed tournament in Kyorugi (sparring) from 2nd geup and technical (poomsae) from 1st Dan/Poom and highbreak and powerbreak, Hanbonkyorugi, Hosinsul, poomsae with music, speedbreak for pupils, starters, juniors and seniors. This tournament is nationally as well as internationally acknowledged as organizational high classed. National teams of Austria, Denmark, Belgium, France and Czech Republic took part in this tournament. Other participating countries were Israel, Italy, Luxembourg, Poland, San Marino, Switzerland, Ireland, USA, Belarus, Lithuania, Germany, Portugal, Spain, Azerbaijan, Nigeria, Tanzania, Zimbabwe, Albania, Turkey, Morocco and of course The Netherlands. Also because of the help of volunteers of our club and of the municipality Sittard-Geleen, it became a successful tournament.

Objectives and Goals:

I learnt how to live better, how to do things better and how to improve myself. I learnt about discipline, respect, organization and helping others. Also learn how to live peacefully and to cooperate with others. I do believe these qualities that I learned from taekwondo make me a better person; the person who I am today. Moreover, I have a strategy in my life.

Special thanks: Herewith I first would like to thank my family for the support and love they gave me through all these years. Further, I want to thank all the club assistants / members / parents. Also special thanks to all my taekwondo friend / colleagues in Netherland and all of the World.
