4. Mr. KOTSIFAS John

- Current Position: Former WT Vice President
- Date of Birth: March 30, 1959
- Language: English, Greek
- Gender: Male
- Nationality: Australia

A. Qualification & Experience in Taekwondo

- Vice President - World Taekwondo
- President - Oceania Taekwondo Union
- Council Member - World Taekwondo
- Secretary General - Oceania Taekwondo Union
- President - Sports Taekwondo Australia
- 5th Dan – Kukkiwon

B. Experience in Other Areas (Other Sports, Business or Professional)

I am an experienced lawyer with over 34 years in legal practice, specializing in both sports and immigration law. I currently serve as a member of Australia's National Immigration Tribunal, where I adjudicate complex matters, including refugee and protection visa appeals. In 2021, I was honored to secure Australian refugee visas for several female Taekwondo athletes from Afghanistan, ensuring their safety and future in sport.

My commitment to sport spans more than three decades. I have over 30 years' experience in sports governance, having served as a World Taekwondo Council Member for the past 10 years in my capacity as President of the Oceania Taekwondo Union. My leadership has focused on regional development, integrity in governance, and increasing athlete opportunities across Oceania.

In 2000, I was appointed by the Australian Olympic Committee to manage the Australian Taekwondo Team for the Sydney Olympic Games. In 2004, I was personally appointed by IOC Member and then AOC President John Coates to manage five sports—Weightlifting, Wrestling, Fencing, Modern Pentathlon, and Synchronized Swimming—at the Athens Olympic Games.

In recognition of my service to Taekwondo and Australian sport, I was awarded the Australian Sports Medal by the Prime Minister in 2000.

With a unique combination of legal expertise, Olympic-level sports administration, and deep regional and international Taekwondo experience, I bring a vision for a more democratic, transparent, and inclusive World Taekwondo. I am committed to reform that benefits every member nation—large or small—and ensures that our athletes, federations, and regions all have an equal voice in shaping our sport's global future.

C. Education

- Bachelor of Laws
- Bachelor of Economics
- Post Graduate Diploma in Labour Relations Law

D. Vision for WT in next 4-years**A Bold Vision for a Democratic and United World Taekwondo**

As Vice President, I will work to build a fairer, more inclusive, and globally representative World Taekwondo—one that reflects the values of our sport and empowers all its members.

One Member, One Vote

All MNAs must have equal voting rights and access to WT benefits. No nation should be excluded from decision-making or support. Every MNA, large or small, must have a seat at the table.

True Continental Representation

WT Council members representing each continent must be elected only by MNAs from their region. Allowing outside votes weakens accountability and undermines regional voice. Let each continent speak for itself.

Leadership by Elected Officials

A democratically elected Executive Committee must oversee daily operations. Currently, the President and unelected staff make all decisions—this is outdated and undemocratic. Like other international federations, WT must modernize.

Empowering CUs in Governance

Continental Unions must nominate WT committee members. At present, these are appointed solely by the President. This must change to reflect shared ownership and ensure regional expertise guides global policy.

Global Development & Financial Equity

We must provide core administrative funding to all MNAs and significantly invest in grassroots development—especially in the poorest nations across all continents where Taekwondo remains underdeveloped or unsupported.

Olympic Qualification Reform

The current Olympic qualification system must be restructured to allow more nations a realistic pathway to qualify athletes. The Games should reflect global participation, not just regional powerhouses.

A Global Forum for the Future

WT must host a bi-annual conference of all MNAs and CUs to collectively shape its strategic direction and vision. This will be a platform for unity, transparency, and progress.

D. Vision for WT in next 4-years

In recent years taekwondo has advanced remarkably and is heading towards new horizons, but all changes require attention to the realities facing our regions. From my position as President of the Pan American Taekwondo Union, I have witnessed and found solutions to the challenges that the Pan American region faces.

But I am aware that these challenges are not unique to our region. As Vice President, I will be able to bring the vision that the experience of leading an economically and geographically challenging region has given me.

Under the guidelines of WT, I will be able to collaborate in the development of strategies, based on

my history within taekwondo, since I have had the opportunity to develop in different roles, founded my own taekwondo school, being an international referee, president of the national federation, Council Member of the PATU, and finally with great honor and humility, the achievement that brings joy to my heart, being the president of the PATU.

I aspire as Vice President, to be the voice of the different groups that I have been able to experience, to be able to contribute ideas that lead taekwondo and World Taekwondo, to be recognized as one of the best international federations. Setting the legacy of what will be the taekwondo of the future.

We have conquered the Olympic territory, being incorporated into the program and aiming to add new modalities. We are a sport that seeks invocation, that adapts and thrives. The path of my life has given me the strength, humility and tenacity to fight for an ideal and it is my desire to bring to success the principles that mobilize the World Taekwondo, to every corner of the globe, to every group, demonstrating that, in this great family, we all have a place.

6. Mr. PARK Chun Jae

- Current Position: WT Council Member • Gender: Male
- Date of Birth: January 9, 1960 • Nationality: USA
- Language: English, Korean

A. Qualification & Experience in Taekwondo

With over 55 years of dedication to Taekwondo as a welter weight world champion in 1982, 9th Dan Grandmaster, educator, and leader, I have consistently pursued the harmonious integration of Taekwondo's physical and philosophical values. As a long-serving Professor at George Mason University and a member of the Kukkiwon Board and World Taekwondo Council, I have championed educational reform, global outreach, and ethical governance. In the United States, I have established the U.S. Congressional Taekwondo Club, where I teach Taekwondo to members of Congress.

B. Experience in Other Areas (Other Sports, Business or Professional)

- Director of global relations, the Center for Sports Management, George Mason University, USA
- Faculty, taught Sports related subjects over 20 years, George Mason University, USA
- Commissioner of the National Unification Advisory Council, Republic of Korea Presidential Advisory Body, 2015
- Sr. Vice Chairman of Board of Trustee, Washington Korean School.
- Special Assistant to President of Korean Olympic Committee, 1986

C. Education

- Ph.D. In Social Psychology of Leisure sports, University of Maryland, 1995
- MA. in Sports Science, Korea national Sports University, 1985
- BA. in Physical Education, Korea National sports University, 1983

D. Vision for WT in next 4-years

If elected, I will lead with decisive action and a clear policy agenda centered around innovation, inclusion, and institutional growth. My two primary initiatives are as follows:

- Incorporating Breaking (Kyukpa) as an Official WT Competition Discipline.
Following the success of Kyorugi and Poomsae, I will champion the global integration of Breaking (Kyukpa)—including Demonstration and Creative Breaking—as a full-fledged

competition category within World Taekwondo's official program. Breaking represents more than technique; it is a powerful display of mental focus, physical precision, and team-based creativity. Through high-level individual and team competition, Breaking captivates audiences with thrill, intensity, and spectacle, whether in-person or through media broadcasts. Enhanced media exposure will increase commercial value and attract new sponsorship opportunities. By formalizing this discipline, more athletes across WT member nations will be engaged, strengthening our athlete pipeline. This also lays the groundwork for Breaking to potentially be recognized as an Olympic discipline in the future, expanding Taekwondo's global visibility and appeal.

- Securing NCAA Recognition for Taekwondo as an Official Collegiate Sport in the United States

I will work to ensure Taekwondo's official inclusion in the National Collegiate Athletic Association (NCAA) program. This effort will involve coordinated advocacy with:

World Taekwondo leadership.

The U.S. Congress and Senate.

School boards and education departments.

Local Taekwondo clubs and communities.

Formal recognition by the NCAA will dramatically reduce dropout rates among young Taekwondo practitioners by providing a clear academic pathway—including college recruitment, scholarships, and athlete development.

Additionally, I will promote the establishment of a National Taekwondo Day through U.S. Congressional legislation, thereby elevating Taekwondo's brand power, cultural prestige, and grassroots participation nationwide.

My Commitment: Through these bold initiatives, we will not only broaden Taekwondo's reach and reputation but also empower a new generation of practitioners to pursue Taekwondo as both a life passion and a competitive future.

D. Vision for WT in next 4-years

During my career as a Taekwondo athlete, I clinched the first gold medal in China at the Taekwondo Event of the National Games. I was the first athlete in army to be awarded the title of "Top Model Soldier" - the only athlete in the Army to receive this honor. I also made history as the first Taekwondo practitioner to serve as a member of the National Committee of the Chinese People's Political Consultative Conference.

These milestones have not only deepened my bond with the sport but also afforded me unique opportunities to drive its growth and influence in China.

My passion for Taekwondo remains unshakable, and I am committed to channeling my experience into actionable progress. Whether in my roles as Referee Chair or Army Officer, my mission extends beyond creating a fair competitive landscape - it encompasses elevating the sport's standards and reach:

- **Fostering Inclusion & Equity:** Amplify opportunities for female athletes, coaches, and leaders through targeted training programs and visibility initiatives, ensuring their voices shape Taekwondo's future. Additionally, I will push for initiatives supporting grassroots practitioners, including underprivileged youth, persons with disabilities, and rural communities, by organizing free training camps and securing essential equipment.
- **Driving Scientific Growth:** Collaborating with research institutions to integrate sports science — from biomechanics to injury prevention — into training to strengthen Taekwondo's foundation, making it safer and more effective for all.
- **Upholding Transparency:** Leveraging my roles in governance, I will advocate for clear,

accountable systems that build trust, ensuring decisions prioritize the sport's integrity and the community's needs.

Ultimately, my goal is to expand Taekwondo's impact — as a tool for empowerment, a platform for equity, and a symbol of excellence. It is this vision that drives my commitment to serving the sport, both now and in the years ahead.

16. Mr. BINEV Slavtcho (Slavi)

- Current Position: MNA President • Gender: Male
- Date of Birth: December 10, 1965 • Nationality: Bulgaria
- Language: Bulgarian, English, French, Russian, Italian

A. Qualification & Experience in Taekwondo

Taekwondo has been a part of my life for over 50 years. As an athlete, I became a multiple national champion and won many international tournaments. A highlight was my 1992 victory in Celje, Slovenia—at a competition under mixed WTF and ITF rules, considered one of the unofficial European Championships of the time.

In the early years of martial arts in Bulgaria, I held multiple roles—competitor, head coach of the national team, and coach of the country's largest club, CSKA.

In 2019, Kukkiwon honored me as the first non-Korean elected to its Board of Directors. I was re-elected in 2022 and continue to serve with full dedication.

Academically, I hold a Bachelor's degree in Sports from the National Sports Academy, a Master's in Professional Coaching, and I'm currently pursuing a PhD in Social Psychology at the Bulgarian Academy of Sciences. My approach to leadership is grounded in knowledge, ethics, and athlete-centered development.

I have been President of the Bulgarian Taekwondo Federation for the past nine years—now the fastest-growing federation in the country. Internationally, I've had the privilege to serve three terms as Vice President of the European Taekwondo Union, contributing to shaping the sport across Europe. It would be a great honor to continue serving the global Taekwondo community as a Council Member—preserving its traditions and guiding its future. I believe my lifelong dedication and experience make me fully prepared for this responsibility.

B. Experience in Other Areas (Other Sports, Business or Professional)

Taekwondo has been part of my life for over 50 years—as an athlete, coach, and, I hope, as a successful leader. I've climbed every step of the development ladder. But what truly prepares me for the WT Council is my broader experience—as a member of the Bulgarian Olympic Committee (BOC) Executive Board, Chair of various BOC committees, and currently again Vice President of the BOC. These qualities were recognized by the European Taekwondo Union (ETU), where I'm now serving my third term as Vice President.

Twenty years ago, I was honored with the aristocratic church title Archon, received in the Famous Santa Maria Maggiore Cathedral—awarded jointly by the Orthodox and Catholic Church.

As a businessman, I founded and led R-System Holding—active in real estate, construction, hospitality, and media. Under my leadership, it became one of Bulgaria’s top 34 private companies in the 1990s and early 2000s—without state contracts or privatization. This journey earned me the label of a true self-made entrepreneur, featured in The Washington Post under the title “The New Kids in the Eastern Block.”

In public service, I’ve been twice elected as a Member of the European Parliament and once to the Bulgarian Parliament. I was also chosen as Chairman of the Sport Intergroup in the European Parliament—effectively acting as an informal EU Minister of Sport.

This wide-ranging experience in sports, business, and politics equips me with a unique perspective to support World Taekwondo's global mission—offering vision, pragmatism, and dedication.

C. Education

I was born December 10, 1965 in Sofia. My academic way started at the 47th Sports School “Emil Markov” (1973–1979).

Afterwards followed the prestigious 9th French Language High School in Sofia. During my higher education, I attended the National Sports Academy “Vasil Levski” (1986–1990), earning a Master’s degree from the Pedagogical Faculty with dual major specializations in Tennis and Boxing.

Expanding my expertise in athletic instruction and sports science, I undertook numerous international training courses over the world.

Currently, I am pursuing a Doctoral Degree (PhD) in social psychology at the Institute of Psychology, Bulgarian Academy of Sciences.

I have reached the 5th DAN Kukkiwon and am also a holder of Honorary 8th DAN Kukkiwon. This academic preparation gives me reason to believe that I can be one of the most prepared WT Council members.

This educational background underlines my strong dedication to sports education, coaching, international specialization in taekwondo, and ongoing academic development—qualities that strongly support my candidacy for a leadership role in the World Taekwondo.

D. Vision for WT in next 4-years

As I’ve shown in previous presentations, I have significant influence over key public groups. Through my past engagements, I’ve gained valuable experience and built connections that can strongly

contribute to the global promotion of taekwondo—both through media exposure and by expanding our community with new audiences and partners.

This will strengthen our corporate partnerships, increase financial resources, and elevate our social commitments. As a council member, I plan to secure contracts with global companies and position taekwondo on their shortlists, accelerating deals on continental, national, and local levels.

In terms of competition, relying solely on electronic systems is no longer sufficient. It's time to integrate artificial intelligence to reduce wasted time and resources. This innovation will eliminate human error, making judging fully transparent and objective—resolving one of our biggest issues and making the sport more attractive to broadcasters. Our partners and sponsors will proudly support a modern, fair-play sport.

As Vice President of the Bulgarian Olympic Committee, I am committed to maintaining taekwondo's place in the Olympic program and advocating for the inclusion of more categories, including poomsae.

Those who know me, understand my dedication. Any organization striving to grow and lead would benefit from the energy and commitment I bring. I believe strong leaders surround themselves with strong allies—and I am one of them.

Kamsahamnida!

His vision is to promote ethical values such as solidarity, respect, citizenship, inclusion and peace, especially among the younger generations. He sees major international competitions and events not only as showcases for athletic excellence, but also as opportunities to convey these values and bring people together across cultures and borders.

I want to use this strategic mindset to strengthen World Taekwondo with structured, transparent and athlete-centered approaches.

My vision is to create the conditions for athletes to achieve their highest performance, built on a strong foundation of grassroots development and broad participation. The Olympic Games remain essential for our sport's visibility, and I fully support efforts to win more medals and ensure that Poomsae is included in the Olympic program.

To stay relevant, our competition rules must evolve continuously, reflecting the needs of athletes, audiences and the global sports community. While we move forward with innovation and new ideas, we should also value the cultural aspects of Taekwondo that have shaped it into the sport it is today.

Moving Taekwondo forward is something we can only achieve together. This means developing modern, fair and exciting competition systems, embracing new technologies such as data, artificial intelligence and digital media, and ensuring that both elite and grassroots Taekwondo can grow side by side.

Guided by the principle "Peace is more precious than triumph," I want to help Taekwondo evolve as a sport, support its athletes and strengthen our global community.

3. Introduce eco-conscious practices that reduce waste rather than increase costs: Avoid frequent changes to uniforms or competition equipment. Cut down on excessive free merchandise, disposable items, and unnecessary printing during championships. Encourage material efficiency, reusable branding assets, and digital alternatives where practical. Promote a “less but better” philosophy: sustainability through simplicity, not spending.

4. More efficient decision-making. Ensure WT and continental commissions are clearly defined in purpose. Introduce clear and consistent standards for the number of members in boards and commissions within whole Taekwondo organizations: continentals and MNAs.

A. Qualification & Experience in Taekwondo

6th Dan with extensive leadership and technical expertise:

WT Executive Council Member for the last twenty-nine years: this experience has given me a deep understanding on how our institution works.

Board of Arbitration Member: a thorough knowledge and expertise of the WT Competition Rules and Interpretation and WT Statutes have given me the opportunity to officiate in elite events such as qualifying tournaments, world championships, world cups, and Olympic Games (Sydney 2000, Athens 2004, London 2012, Rio 2016), all of them during the last twenty-five years.

I have promoted gender equality in sports, being part of projects such as the first-ever WT Gender Equity Forum and earning three IOC Women and Sport awards.

My work has been recognized with honors—like the PATU Hall of Fame award in 2022 and special recognition from the President of the Korean Republic Dr. Roh Moo-Hyun in 2003, all while helping taekwondo grow worldwide and make a real difference in people.

B. Experience in Other Areas (Other Sports, Business or Professional)

- Retired

C. Education

- Bachelor in Fine Arts

D. Vision for WT in next 4-years

In governance, I am committed to maintaining our federation's standards to keep WT's ASOIF's A1 ranking. Under my leadership as Counselor, the Guatemalan Taekwondo Federation is placed at the Top Five, among 46 national federations in governance audits conducted by the Ministry of Finance and national audit authorities. This year, the audit for the period from January 1 to December 31, 2024, concluded with outstanding results. The report's conclusion confirms no reportable findings were detected, demonstrating our federation's rigorous standards and commitment to transparency,

accountability, and strict accounting practices in alignment with World Taekwondo's values.

My life's purpose to transform lives:

My passion, however, lies in social programs, where I have seen Taekwondo's impact on the lives of many. I want my legacy to be the palpable difference it has made for boys, girls and women, empowering them to overcome adversity. Programs like Taekwondo for Me—which supports survivors of sexual violence—and Hoodlinks, which prevents children from gang influence, have shown how discipline and self-esteem can change their future. The Maya ethnic groups Project and Tipulcan have broken barriers for marginalized communities, fostering confidence and leadership.

One of my initiatives is Villa de las Niñas and Niños project, (orphans) reaching 1,500 underserved youth. Through Taekwondo, we teach resilience and values, complementing their education and vocational training.

My effort has been recognized by the 2024 WT Sustainability Award, for the Project “Taekwondo for Me”, which empowers survivors of sexual violence through Taekwondo, facilitating emotional healing, physical strength, and social skills to promote inclusion and improve their quality of life.

My work has always been driven by a deep belief in Taekwondo's power to transform lives, and I am honored to continue this path with honor, pride, and dedication alongside the WT.

D. Vision for WT in next 4-years

The WT Mission is to “develop and grow Taekwondo throughout the world.” Taekwondo’s status as a core Olympic sport is the most important element necessary to achieve this objective. The Olympic Games represents the pinnacle of amateur sport in the world, and is the best platform to promote our sport worldwide. According to Sports Pro, the Paris 2024 Olympic Games enjoyed a significant increase in viewership compared with the Tokyo Games with a 25% rise to 28.7 billion hours watched globally. The Games also generated 412 billion engagements from 270 million social media posts. These are staggering numbers.

In order to preserve this critical position on the Olympic programme as a core sport, it is important that WT continues to renew our sport to make it even more exciting and approachable for the non-Taekwondo viewer. This past quadrennial I served on the “Rules Reform Committee for the LA 2028 Olympic Games” that reviewed the current rules and competition structure. Many other sports are

reluctant to change and therefore jeopardize their future in the games. I believe our open mindedness, humility and willingness to change and evolve is important to maintaining our relevance in future Olympic Games.

I also believe it is important for us, World Taekwondo, to continue to advance our work in integrity, sustainability and governance. These important areas enable World Taekwondo to continue to be a top performing Olympic International Federation as well as enabling us to best serve our membership. Finally, I believe we should continue to grow and expand our efforts in the Taekwondo Humanitarian Foundation, Taekwondo Cares and the Hope and Dreams Sport Festival. Advancing these humanitarian initiatives places WT in a leadership position in the sports world. Ghandi quote says it best “Be the change you want to see in the world.”
